System Description

For a period of 10 years from the Warranty Date below, Firestone Building Products Europe ("Firestone"), hereby warrants to the Building Owner ("Owner") that Firestone will repair any leak including labour and membrane costs as a result of deterioration to the point of failure of the Firestone Roofing Membrane due to ordinary exposure to the elements or any manufacturing defect in the Firestone Roofing Membrane.

In the event that the material deteriorates to the point of failure resulting from such defect in materials or manufacturing workmanship Firestone shall, upon receipt of written notice provided within thirty (30) days of the discovery of such deterioration promptly inspect the project installation to determine the cause of the same. In the event that Firestone reasonably determines that deterioration due to defect in material or manufacturing workmanship has in fact occurred, the Owner's sole and exclusive remedy and Firestone's liability shall be limited to the repair of the leak.

To the extent that any damages are due to acts of God, natural disasters (including, but not limited to strong gales, hurricanes, lightning, tornadoes, and earthquakes), negligence, abuse, vandalism, repairs or alterations or attachments or additions to the project, or war or civil disobedience and/or do not directly arise from any defect in material or manufacturing workmanship, such damages are excluded from coverage under this warranty.

Firestone shall have no obligation under this warranty until Firestone, the Licensed Contractor, and material suppliers have been paid in full for all materials, installation, supplies and service which are included in the project contract.

This is the entire warranty covering the membrane material and there are no other guarantees or warranties expressed or implied.
